

## General Education Pathway/Academic Year 2019-20

SLCC's General Education (GE) program provides the subject-area knowledge and learning skills foundation for 2- and 4-year degrees. **Core** and **Institutional** courses make up the general education foundation. **Distribution Areas** courses give an opportunity to explore various subjects. General education courses are highly advisable for concurrent enrollment students; they are required for college graduation and transferable from one Utah System of Higher Education (USHE) institution to another. *Students completing all GE requirements – 5 concurrent enrollment classes (CE) junior year and 6 CE classes senior year plus register separately for a 1*

*credit early enrollment Lifelong Wellness class – earn a SLCC Certificate of Completion in General Studies that is transferrable to all USHE institutions (you will have to complete unique institution graduation requirements only).*

1. **Review the class list below with parents and counselors. Follow the instructions, in blue, to select classes in each GE category.**
2. **Speak with experts about GE choices.** 1. Ask a high school counselor which GE classes are available at your school; ask about other ways to fulfill GE requirements (AP, for example). 2. Ask your SLCC CE advisor assigned to your high school, 801-957-6344 (<https://www.slcc.edu/concurrentenrollment/Students/advisors.html>) how your course choices will fit different certificate and degree programs.
3. **Are you ready to be a Bruin? Let's get started.**
