

General Education Pathway/Academic Year 2019-20

Utah State University's General Education (GE) program provides the subject-area knowledge and learning skills foundation for its 2- and 4-year degrees. **Core** courses make up the general education foundation. **Breadth** courses give an opportunity to explore various subjects. General education courses are highly advisable for concurrent enrollment students; they are required for college graduation and transferable from one Utah System of Higher Education (USHE) institution to another. *It is possible to complete USU's GE requirements by taking 5 concurrent enrollment classes each junior and senior year, then registering separately for ENGL 2010.*

1. Review the class list below with parents and counselors. **Select one class from each category.**
2. **Speak with an expert about your choices (well, actually two experts).** 1. Ask a high school counselor which GE classes are available at your school; ask about other ways to fulfill GE requirements (AP, for example). 2. Ask a USU academic advisor how course choices fit different certificate or degree programs (call 435-797-8223 or visit <https://concurrent.usu.edu/info/advising.cfm> for advisor contact information).
3. **Are you ready to be an Aggie? Let's get started.**
